-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1711

All previous rejections and/or objections have been withdrawn in view of the certified translations submitted of applicants' priority documents submitted in the parent case.

The non-statutory double patenting rejection, whether of the obviousness-type or non-obviousness-type, is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent. *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); and *In re Goodman*, 29 USPQ 2d 2010 (Fed. Cir. 1993).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(b) and (c) may be used to overcome an actual or provisional rejection based on a non-statutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.78(d).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 8-13 and 27-36 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 21 of U.S. Patent No. 6,451,901. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the patent and those of the application overlap and furthermore there would appear to be no difference between a product containing an aqueous dispersion or solution of vinyl polymer incorporated into an aqueous dispersion as recited by the instant claims and an aqueous dispersion containing an olefin polymer in that both products would comprise an aqueous dispersion of vinyl polymer.

The terminal disclaimer filed on 2-24-05 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,610,774 has been reviewed and is accepted. The terminal disclaimer has been recorded.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 8, 9 and 30-36 are rejected under 35 U.S.C. 102(a) as being anticipated by Maekawa et al (WO 01/07518

See the previous office action at the paragraph bridging pages 2 and 3.

Applicant's arguments filed 2-24-05 have been fully considered but they are not persuasive. The requirements of a certified translation of applicants priority documents are satisfied based on applicants submission of a copy of the certification in the parent case that the English translations were correct. Nonetheless, review of the parent translations indicate that the range endpoints "45" and "55" as recited in claim 8 of the present application are not supported and in fact all of applicants priority documents at paragraph 11 disclose ranges of 2-50 or 2-30.

The Examiner regrets the above new grounds of rejection.

This Office action is not being made FINAL.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey Mullis whose telephone number is (571) 272-1075. The examiner can normally be reached on Monday-Friday from 9:30 to 6:30.
